

Welcome

Rupprecht Consult - Forschung & Beratung GmbH is a **fully independent** private research and consultancy company, based in Cologne since 1996. Our mission is to contribute to **sustainable development** of cities and regions in Europe and worldwide.

We are a **committed team** of internationally experienced consultants delivering **quality services** in the fields of urban and regional development, transport and mobility, environmental protection, information technologies and, generally, innovation to society.

We are part of an **excellent network** international stakeholders in sustainable development. Our main customers are cities, regions and international organisations in many countries.

Our aim is to communicate actively about our company and its activities. Please [contact us](#) for information not available on this website.
