Decongesting Europe: New approaches to freeing our cities

How walking and cycling can help reduce congestion.

FLOW AND TRACE
FINAL CONFERENCE

13-14 March 2018
BRUSSELS

The FLOW and TRACE projects join forces and invite you to an interactive event including a TRACE “tracking tour”, training sessions, presentations, breakout sessions, political debate, world café and awards.

- 13 March
13-18h
- Talk with politicians from European partner cities and regions and with EU representatives about congestion and how walking and cycling can help address it
 - For practitioners: reducing congestion through modeling, impact assessment and tracking for new walking and cycling schemes
 - For businesses and consultancies: products and services to improve walking and cycling
- 14 March
9-17h
- Plenary: Learning from cities, building on experience
 - World Café: How FLOW and TRACE cities have used new approaches over the past three years
 - Parallel workshops: When and how to use FLOW and TRACE tools
 - “Tracking tour”: Test the TRACE apps first hand to experience how they work
 - Breakout session: How can these tools work for you?
