Dear all,

as you know, the FP7-funded TRANSFORuM (www.transforum-project.eu) project provides a fresh approach to identify feasible pathways towards four goals of the 2011 Transport White Paper. At its core is the systematic involvement of stakeholders (and not just the usual suspects) in order to learn from implementers how real implementation could be fostered. In addition to its 11 face-to-face events (<http://www.transforum-project.eu/events.html>) for this purpose, TRANSFORuM also gathers stakeholders' views with online surveys.

Please take 10 minutes to respond if you are an expert / stakeholder in

- urban mobility: [Urban Mobility Survey wave 1](#),
- long-distance freight: [long-distance freight survey wave 1](#),

- high-speed rail: [highspeed-rail survey wave 1](#),
- or ITS: [ITS survey wave 1](#).

Many thanks indeed and best regards.

Ralf Brand
(TRANSFORuM project co-ordinator)
