

Monitoring and evaluation in sustainable urban mobility planning

Course description

Monitoring and evaluation activities deliver data about the progress of the Sustainable Urban Mobility Plan (SUMP) development process and the impact of policy measures. This course explores how to determine the context for monitoring and evaluation and develop a Monitoring and Evaluation Plan. It looks at selecting indicators and targets and provides insights into evaluating planning processes using, for example, the SUMP Self-Assessment Scheme. By the end of this course, you will have gained comprehensive knowledge about how to establish clear and effective monitoring and evaluation procedures.

Target audience

Planning authorities and other professionals concerned with transport and mobility planning or its impacts

Thematic area

SUMP
